GRANGERS, PROTECTING THE WORLD AGAINST THE ELEMENTS SINCE 1937.

Grangers is a British brand built upon a love of unpredictable weather and dedicated to enhancing time spent outdoors. The two things the brand will never compromise on are performance and eco-responsibility.

The Grangers journey began in 1937 and, less than 10 years later, it developed the first-ever water-based protection products. Some of the brand's earliest successes included providing waterproofing products to the British Ministry of Defence and protecting Sir Edmund Hillary and Tenzing Norgay against the elements in the first successful Mount Everest summit.

Almost 90 years later, Grangers is just as dedicated to environmentally-responsible aftercare, always looking for ways to strengthen every aspect of the business from manufacturing to distribution. Its commitment to sustainability and performance means that innovation is at the heart of everything it does and its dedicated Research and Development team ensure that its products are at the forefront of every technology.

Grangers is committed to producing environmentally-responsible, durable aftercare and, in 2007, it became the first aftercare brand in the world to receive bluesign® accreditation. In 2020, the brand added more firsts when it launched its 2020 Eco Pledge, becoming the first aftercare brand to use Ocean Waste Plastic which then transitioned to be the first to use Prevented Ocean Plastic in its 100% recycled bottles and launching a sustainability survey - the first of its kind to the outdoor industry. As well as these, it also incorporated the use of refill pouches, further developed its refill stations and updated its Performance Wash and Down Wash to concentrated versions - all positive steps to reduce the impact of plastic waste.

The company hosts a range of bluesign® approved, biodegradable and vegan products and is proud to say that the whole brand is PFC/PFAS-free and eco-responsible. Sold in over 50 countries around the globe, and hosting a range of superior-performing products unlike anything else on the market, Grangers enables the world to live differently and explore more, keeping gear performing and out of landfill.

#WITHGRANGERSYOU CAN

1937 The Grangers brand was founded, setting up operations in Watford, England.

1947 Grangers developed the world's first-ever water-based waterproofing solution, paving the way for environmentally-responsible protection.

1953 Grangers products helped to protect the equipment used during the first successful Mt. Everest summit.

1977 Grangers' chairman, Martyn Rose, purchased the company and began transforming the brand into the market leader it is today.

2005 Grangers invented the first ever 2-in-1 cleaning and reproofing formulation.

2007 Grangers was the first aftercare brand in the world to receive bluesign® accreditation.

2019 Grangers moved to brand new, custom-built headquarters, in the heart of Derbyshire, strengthening every aspect of the business from manufacturing to distribution.

2020 Grangers launched its 2020 Eco Pledge, becoming the first aftercare brand in the world to use 100% recycled Ocean Waste Plastic which then transitioned to be the first to use Prevented Ocean Plastic bottles as well as launching a first-of-its-kind sustainability survey.

2023 Grangers Down Defend was officially launched, a world-first in high-performance, bluesign® approved, hydrophobic down.

2024 Grangers became the first official aftercare partner of the RNLI.

What is bluesign®?

The bluesign® standard is a widely accepted, reliable and proactive tool that certifies the eco-friendliness of an entire production chain. Instead of focusing on finished product testing, the bluesign® standard analyses all input streams - from raw materials to chemical components. Since assessment begins prior to production, potentially harmful substances can be eliminated before production even begins - resulting in a cleaner, safer and more environmentally-responsible finished product.

PFC
FREE

APT 
ADVANCED POLYMER
TECHNOLOGY

As part of the company's commitment to protecting people not only now but in the future, all of Grangers formulations are PFC-free.

Advanced Polymer Technology (APT) is Grangers' own blend of fluorocarbon-free polymers and emulsions. Developed by the in-house Research and Development team, it's formulated to provide a highly breathable and durable water-repellent finish to all outdoor gear.

Grangers next generation bottles are made from 100% Recycled Prevented Ocean Plastic and are 100% recyclable. This means that every bottle is doing its bit to prevent plastic waste from reaching the ocean.

ISO 9001 & 14001

These accreditations mark Grangers commitment to manufacturing.

To this day, the Grangers product range is still manufactured at its Headquarters based in Derbyshire, enabling the company to have complete control of the quality of the products throughout the entire production process. All manufacturing processes are conducted with the environment in mind, ensuring true environmentally-responsible protection.

clothing care - cleaning

PERFORMANCE WASH

This powerful, now concentrated, wash-in cleaner, restores the performance of all waterproof clothing, keeping you warmer and drier for longer.

This powerful, wash-in cleaner is formulated specifically for technical garments. Simply use half a cap to clean, remove odours, optimise breathability and revive any existing water-repellency. This residue-free, eco-responsible formula is compatible with all water types and ideal as preparation for reproofing.

Suitable for all fabrics, including GORE-TEX.

Size : 300ml, 10fl oz, 1ltr, 33.8fl oz, 5L, 169fl oz & 10L, 338fl oz

insoles

G10 INSOLE

G10 Memory+ insoles are designed to provide comfort and support to all types of footwear.

5mm memory foam mid-layer to ensure immediate and long-lasting comfort, these insoles include a moisture-wicking Coolmax® DermoDry® top sheet and a felt base for moisture management, added durability and increased stability.

FEATURING:

G20 INSOLE

G20 Trek insoles provide enhanced comfort and support for all activities.

Built around a lightweight, low volume, dual-density EVA foam footbed to absorb and disperse shocks. The contoured arch support and a deep heel well provide stability, together with a Coolmax® DermoDry® top sheet to wick away and manage moisture.

FEATURING:

G30 INSOLE

G30 Stability insoles provide the highest level of protection, support and comfort.

Built on a felt base for breathability and moisture management, the memory foam core adds comfort and combines with a contoured EVA cradle and gel heel inserts for arch support, heel retention and shock protection. Finished with a Coolmax® DermoDry® top sheet to wick away and manage moisture.

refill station

Our easy-to-use refill stations allow your customers to easily refill their cleaners and proofers in-store, extending the life of their already recycled bottles.

The Wash + Repel Clothing 2 in 1 station is like no other on the market. Containing a product entirely unique to the Grangers brand, you can help your customers to not only save time, conserve energy and water but help to prevent plastic waste - one of the biggest problems facing our planet today.

The combined Performance Wash and Clothing Repel is the easy bundle for those who regularly want to clean their clothing before reproofing.

Size: Surround + 10L, 338fl oz drum

point of sale

A variety of POS options to help increase the saleability of Grangers products in-store.

From fully designed wooden stands to metal stands with or without digital screens, as well as the Counter Display units, there are a variety of options on offer to help you increase the saleability of products in-store.

We can also create bespoke planograms for you to maximise the presence of your Grangers stock within stores.

point of sale

We're here to support you so you can easily sell Grangers and grow the aftercare category with your customers or within your stores.

Our Marketing Department is always willing to discuss a bespoke package to see how they can best support. From training sheets to in-store bespoke POS, we would love to work with you to maximise your Grangers sales.
