HOW TO ORDER

At Gamehide®, we want you to be able to order exactly what you need. That's why we offer both **Pre-packs** and **Solid packs**.

Pre-packs give you a size run in a single, easy-to-order, easy-to-stock, individual carton. **Pre-packs** are ideal when ordering smaller quantities or if you're looking for a convenient, proven way to assure the right size selection. **Pre-packs** are shipped in one camo pattern/color only.

All **Pre-pack** sizing as seen below, unless indicated adjacent to product.

Solid packs allow you to create your own size selection by ordering in quantities of six, all of the same size and color.

Any exceptions will be listed in the catalog next to that style.

Pick & Pack available on all garments excluding accessories: add \$1.50 per piece.

When ordering, indicate color using color codes. (available colors and codes adjacent to each garment).

SIZING

At Gamehide®, we cut our garments (in most styles) for a generous fit. An XL, for example, is truly an extra large! Comfort, and a roomy, non-binding fit can be key to helping you enjoy a successful hunt. We know because we've been there.

| PANTS | | | BIBS | | | JACKETS/PARKAS | | YOUTH | | WOMEN | |

NEW CAMO PATTERNS

The **ĀCENT®** family of camouflage patterns use true-to-nature colors, and the latest in **DepthTech** design techniques.

ĀCENT'S® use of DepthTech helps create natural shadows and depth while the open pattern utilizes open spaces of neutral colors. The results are patterns that destroy the human outline and don't "blob out" at a distance. Each pattern specifically targets colors and shades that maximize its effectiveness, giving you an unmatched ability to get closer and go undetected.

Each ĀCENT® pattern is built for a specific terrain or season, and its Latin-based name reflects that purpose. It's a subtle nod to the natural world and the science behind the design—because effective camo starts with understanding where you hunt.

Ā - Adaptive
C - Camo for
E - Every
N - Natural
T - Terrain

ĀCENT® VENATARE

- using the browns and grays found in the autumn woods along with open pattern design, Venatare destroys the human outline while melting into a large variety of terrains. Whether your hunts take you to Midwest hardwoods, southern oak ridges, western high plains or the unforgiving tundra, Venatare will help you disappear. The name comes from two latin names - Adaptare (meaning to adapt) and Venatio (meaning the hunt). ĀCENT® Venatare helps you adapt for any hunt!

ĀCENT® HERBOSA

- designed to make you disappear in a variety of grassy terrains. From marshes to fence lines and cut corn fields, Herbosa is the ideal waterfowling pattern. Designed with our open pattern, eliminating the blob effect and its soft edges melt into the surrounding cover. Herbosa is a latin word meaning grassy.

ĀCENT® IGNIS

- designed to break up your outline while keeping you seen and safe. Our true blaze orange color is created from special dyes that capture the safest nanometer ratings, while our ĀCENT® pattern destroys the human outline. It meets all state blaze requirements where blaze camo is legal. Ignis is a Latin word meaning fire, fitting for our true blaze color.

GAMEHIDE® DEVELOPS AND USES THE LATEST CAMO PATTERNS

incorporating regional and seasonal color palettes, that allow you to get closer without detection!

MULTI-PURPOSE ALL-SEASON PATTERNS

ACENT®
Venatare

ACENT® Venatare (AV)

Using the browns and grays found in the autumn woods along with open pattern, Venatare destroys the human outline while melting into a wide variety of terrains. Developed using true-to-nature colors and DepthTech techniques.

REALTREE®
APX

Realtree® APX™ (APX)

With Realtree APX®, we developed the perfect combination of Abstract and Photo Realistic elements to create the most effective All-Purpose pattern on the market today. Combining photo realistic images of real bark, sticks, limbs, and leaves creates a complex pattern that makes the abstract elements look natural up close. The Realistic elements form more abstract features at a distance blending into natural features. APX is the only pattern that uses SET technology making the human form disappear with soft edges that blend in naturally.

MOSSY OAK®
BOTTOMLAND

Mossy Oak® New Bottomland™ (NBD)

Bottomland™ is the pattern that launched Mossy Oak® more than 30 years ago. Driven by the desire to get closer to turkeys in his home state of Mississippi, Toxey Haas turned a handful of bark, sticks and leaves into an extremely lifelike hunting pattern. It features a legendary outline-breaking ability that helps hunters blend into dark hardwoods, flooded timber and treestand environments. Add new printing technology and softer edges, New Bottomland™ adds even more to this classic pattern.

WATERFOWL

ACENT®
Herbosa

ACENT® Herbosa (AH)

Designed to make you disappear in a variety of grassy terrains including marshes, fencelines, and cut corn or wheat fields. Developed using true-to-nature colors and DepthTech printing techniques.

MOSSY OAK®
SHADOW GRASS
BLADES

Mossy Oak® Shadow Grass® Blades™ (SB)

Mossy Oak® Shadow Grass® Blades™ features a precise arrangement of individual blades of grass, whether windblown, broken or bent, onto a background of thatch consisting of lesser or dead grass, to create the perfect pure grass pattern. Carefully placed shadows from the main grass arranged atop the thatch, which incorporates light to dark spots as seen in nature, creates depth that gives Mossy Oak® Shadow Grass® Blades™ a realistic 3D appearance and superior ability to break up a hunter's outline.

SPECIALTY

ĀCENT®
Ignis

ĀCENT® Ignis (AI)

Designed to break up your outline while keeping you safe and seen to the human eye. Our true blaze orange color is created from special dyes that capture the safest nanometer rating, while our ĀCENT® Ignis pattern destroys the human outline.

**Naked
NORTH**
blaze pink

Naked North® Blaze Pink Camo (PC)

Gamehide, the leader in blaze camo patterns helped develop the standards for blaze pink. We knew it needed to add safety, not just a color female hunters would like. Applying our decades of blaze orange knowledge, we merged it with our popular Naked North camo pattern to create a highly effective, highly visible pink blaze camouflage. Now legal as a blaze color requirement in many states, female hunters now have a great looking alternative. Please check your state regulations for rulings.

Our StretchFlex family of fabrics offer unbeatable comfort.

Using the latest stretch fabric technology, you'll experience a new unrestrictive freestyle fit.

CUTTING EDGE FABRICS

StretchFlex®

Our StretchFlex family of fabrics offer unbeatable comfort. The stretch fabrics move as you move and gives you the flexibility to climb, hike and shoot without binding or pulling. Look for the icon on select styles.

Hush Hide®

Hush Hide® is perhaps the best-known hunting-specific fabric on the market today. It's soft, silent, lightweight, and, unlike the copycat fabrics, it's 100% cotton-FREE which means it won't shrink or fade!

HyperHide®

HyperHide® fabrics are made from high-performance, two-layer "bonded" fleece. It's the perfect hunting fabric when you're looking for soft, silent performance. It resists wind, repels moisture but still breathes extremely well. Some versions also include our HydroCore® lamination for complete waterproof protection.

StormHide® Gridiron

Built for waterfowling, StormHide® Gridiron is a new age performance fabric utilizing sewn in Gridiron fibers for additional reinforcement and abrasion resistance. It's not stiff or bulky and combined with our HydroCore® lamination keeps you bone dry. Plus mud, cattail fluff and stickers won't adhere to it. It's our toughest, most durable fabric!

HunterHide®

With the soft feel of a knit, this woven "un-cotton" fabric resists burrs and offers quick-drying, fade-free performance. Impervia™ on the inside and Outcast™ on the outside make HunterHide® garments weatherproof and perfect for repelling snow, sleet and light rain!

SuppleTUFF®

This fabric is incredibly light, supple and comfortable. There's no break-in time and it's tough as nails! It resists burrs and offers quick drying, fade free performance.

WATERPROOFING

HydroCore®

This waterproof/breathable system protects three ways and is three times more breathable! You'll find HydroCore® in many of our high-performance garments for hunters who demand the ultimate in outerwear performance.

TECHNOLOGY

Vanquish™

Vanquish™ is a high-performance scent-eliminating anti-microbial that stops the stink before it starts. It works by killing bacteria on contact. The treatment is proven, long-lasting, totally safe and dramatically reduces the chances of wary game smelling you.

AirFlow™

The airflow system of vents and/or mesh lining works like a chimney, recirculating air for comfort.

Outcast™

Our first line of defense against Mother Nature, Outcast™ water-beading treatments are applied to the outer layer of fabric. This causes moisture to "bead-up" and run off your garment instead of soaking in. Outcast™ is included on select garments and is PFAS free.

Impervia™

Inner protection from the elements comes in the form of an Impervia™ coating. Treating the garments interior with Impervia™ provides a layer of wind proofing and water resistance.

Freedom Sleeve®

Freedom Sleeve® is the revolutionary sleeve innovation from Gamehide® that eliminates the restrictive pulling, binding and tugging you get with a traditional sleeve.

INSULATION

HeatTech®

Tube-like poly filaments maximize loft and heat retention. The tubes trap body heat to maximize your time outdoors, even in severe cold.

Thinsulate™ FLEX

You'll find Thinsulate™ FLEX in garments where stretch and recovery are important, such as head wear and hand wear.

INSULATED

When you're cold you focus on being warm. When you're warm you focus on the hunt. That's why our insulated garments are made to keep you in the field no matter what Mother Nature throws your way!

NEW

Browtine Jacket – 9NJ

Waterproof/Breathable Mid-Weight Jacket

The Browtine Jacket is your go-to outer layer for hunts when heavy-weight gear is too much. Mid-weight performance, it features 80 grams of low-bulk Heat Tech™ insulation—ideal for taking the chill off without sacrificing mobility. Waterproof and windproof, it's built to block the elements while leaving room underneath for additional layers when temps really drop. Function-forward and hunt-ready, the Browtine Jacket includes a safety harness port for treestand use, a detachable hood with rear adjustment, and a thoughtful blend of zippered and open-access pockets. Whether you're glassing ridges, still-hunting timber, or waiting on a scrape line, this piece adapts to changing conditions and active pursuits.

- Quiet, soft Hush Hide® fabric
- Fleece lined core with nylon lined arms for an easy on/off
- 80 grams of Heat Tech™ insulation for warmth without bulk
- Windproof and waterproof laminated shell
- Safety harness slot at upper back
- Detachable hood with rear drawcord adjustment
- Front zippered slash pockets and chest zip pocket
- Dual open chest handwarmer pockets
- Lycra inner cuffs to seal in warmth
- 2" drop tail hem with adjustable bottom cinch to block drafts

Available in: APX, AV, NBD

Sizes: M-4X

NEW

Browtine Bib – 9NB

Waterproof/Breathable Mid-Weight Bib

Built to complement the Browtine Jacket, the Browtine Bib is a versatile mid-weight option. With 80 grams of Heat Tech™ insulation, it delivers warmth for chilly mornings or late-season layering, all without the bulk of traditional heavily insulated bibs. Waterproof and windproof, it's designed to keep you dry and focused — no matter the forecast. Comfort features like side knit stretch panels and crush-proof, swiveling buckles give you freedom to move, while smart pocket placement ensures essentials are always within reach. Full-length leg zippers make it easy to suit up over boots, so you're never stuck fumbling at the truck.

- Quiet, soft Hush Hide® fabric
- 80 grams of Heat Tech™ insulation for warmth without bulk
- Windproof, waterproof laminated exterior
- Side stretch knit panels for comfort and flexibility
- Crush-proof, swivel-style adjustable buckles
- Two-way front zipper for convenience
- Full hip-to-ankle leg zippers with snap closures
- Front slash pockets and forward-facing cargo pockets
- Fleece lined core with nylon lined legs for an easy on/off

WATERFOWL SERIES

FEATURING

StormHide®
GRIDIRON

Built for waterfowling with sewn in reinforcement for increased durability. Our most durable waterproof fabric ever! Now featuring our newest HydroCore lamination that's more waterproof and breathable!

Waterfowling can be about as tough as it gets on gear. That's why we developed our waterfowling fabric to be even more durable. StormHide® Gridiron is a new age performance fabric utilizing sewn in Gridiron fibers for additional reinforcement and abrasion resistance.

It's not stiff and bulky and combined with our HydroCore® lamination keeps you bone dry. Plus mud, cattail fluff and stickers won't adhere to it. It's our toughest, most durable fabric!

Color Key

AH - ĀCENT® Herbosa™

SB - Mossy Oak® Shadow Grass® Blades™

Slough Creek Jacket - 9WJ

Waterproof/Breathable Mid-Weight Jacket

The perfect waterfowl jacket! Made from our revolutionary StormHide® fabric that wears like iron and repels rain, snow, stickers and mud. Warm but light-weight insulation doesn't bulk up and lots of pockets make gear and shells easy and quick to access.

- StormHide® Gridiron fabric sheds water and burrs yet is soft, supple and tough
- 85 grams of HeatTech® insulation
- HydroCore® laminate creates a waterproof/windproof shell
- Shoulder grips keep slings, shell and decoy bags in place
- Large zippered dump style pockets with waterproof plackets
- Warm fleece lined hand-warmer pockets
- Zip off removable three-piece hood with adjustment cords

NEW

Browntine Jacket - 9NJ

Waterproof/Breathable Mid-Weight Jacket

The Browntine Jacket is your go-to outer layer for hunts when heavy-weight gear is too much. Mid-weight performance, it features 80 grams of low-bulk Heat Tech™ insulation—ideal for taking the chill off without sacrificing mobility. Waterproof and windproof, it's built to block the elements while leaving room underneath for additional layers when temps really drop. Function-forward and hunt-ready, the Browntine Jacket includes a safety harness port for treestand use, a detachable hood with rear adjustment, and a thoughtful blend of zippered and open-access pockets. Whether you're glassing ridges, still-hunting timber, or waiting on a scrape line, this piece adapts to changing conditions and active pursuits.

- Quiet, soft Hush Hide® fabric
- Fleece lined core with nylon lined arms for an easy on/off
- 80g Heat Tech™ insulation for warmth without bulk
- Windproof and waterproof laminated shell
- Safety harness slot at upper back
- Detachable hood with rear drawcord adjustment
- Front zippered slash pockets and chest zip pocket
- Dual open chest handwarmer pockets
- Lycra inner cuffs to seal in warmth
- 2" drop tail hem with adjustable bottom cinch to block drafts

Browntine Bib - 9NB

Waterproof/Breathable Mid-Weight Bib

Built to complement the Browntine Jacket, the Browntine Bib is a versatile mid-weight option. With 80 grams of Heat Tech™ insulation, it delivers warmth for chilly mornings or late-season layering, all without the bulk of traditional heavily insulated bibs. Waterproof and windproof, it's designed to keep you dry and focused — no matter the forecast. Comfort features like side knit stretch panels and crush-proof, swiveling buckles give you freedom to move, while smart pocket placement ensures essentials are always within reach. Full-length leg zippers make it easy to suit up over boots, so you're never stuck fumbling at the truck.

- Quiet, soft Hush Hide® fabric
- 80g Heat Tech™ insulation for warmth without bulk
- Windproof, waterproof laminated exterior
- Side stretch knit panels for comfort and flexibility
- Crush-proof, swivel-style adjustable buckles
- Two-way front zipper for convenience
- Full hip-to-ankle leg zippers with snap closures
- Front slash pockets and forward-facing cargo pockets
- Fleece lined core with nylon lined legs for an easy on/off

DEER CAMP[®] SERIES

*A special promotional line
from the makers of Gamehide[®]*

Deer Camp[®]. It's where we go to be with family and friends and to do what we love. It's where young men and women become adults. It's where we learn about life, the outdoors and that food doesn't come from a grocery store. It's where we match wits with the most hunted big game in the world. It's where we experience disappointment and elation, buck fever and camaraderie. It's where we build traditions! Gamehide[®] proudly presents the latest Deer Camp[®] Series. For everyone who loves Deer Camp[®].

Our Deer Camp[®] line offers quality garments at an unbeatable price! We didn't cut corners, we just designed them with the basic features needed for a successful hunt. All of our waterproof garments are laminated with 100% taped sealed seams. We use quality fabrics and the highest stitch counts to bring your customers the best value.

Available in these camo patterns:
