# A LEGACY OF INNOVATION

For over 60 years, Gamo has been at the forefront of designing and manufacturing premium air rifles, air pistols, and air gun ammunition, trusted by enthusiasts worldwide for small game hunting, competition, recreation, and pest control.

Today, Gamo products are available in more than 90 countries, with a global presence through offices in the USA, UK, Spain, and Mexico. As a truly iconic brand, Gamo combines cutting-edge technology with exceptional quality, backed by unmatched customer service and engagement.

## THE DIFFERENCE IS OUR DNA

- Fully integrated manufacturing
- Repeated test firing
- Exhaustive quality control procedures
- Automotive-grade robotic technology
- Patented polymer-jacketed barrel
- Patented Whisper® sound-dampening technology
- Green manufacturing facility

Dominate the air with GAMO - the most innovative air rifle manufacturer.

## THE RIGHT AIR GUN > THE RIGHT AMMO > THE PERFECT COMBINATION

At Gamo, we manufacture many different air guns to fit the needs of versatile shooters everywhere. With such a variety of choices, we've created the GAMO PROSHOT ID SYSTEM to help you better align your shooting needs with the performance attributes of each model. From Hunting to Pest Control & Recreation to Target & Competition, all Gamo air gun and ammunition packages are clearly labeled and color coordinated to designate their recommended primary usage—so you can easily pair the right ammo with the right air gun. Every time.

### GAMO PRODUCT RECOMMENDED USAGE

#### PEST CONTROL + RECREATION

Provides accuracy and high velocity—ideal for nuisance animals such as mice, rats, birds and snakes. Also perfect for recreational shooting and other everyday uses.

#### HUNTING

Delivers accuracy with higher energy downrange for ultimate impact and penetration—ideal for small game such as rabbits, squirrels, raccoons, and crows.

#### TARGET + COMPETITION

Offers the ultimate in accuracy and consistent performance—ideal for both training and competitive shooting.

All velocities have been measured with PBA (Performance Ballistic Alloy) pellets.

## Sound suppression technology and sound levels

Gamo's patented Whisper® technology leads the air rifle industry in sound suppression. This technology is categorized into three tiers—Whisper, Whisper Maxxim and Whisper Fusion—for quiet, quieter, and quietest performance. However, «noise reduction» does not mean «silence», as sound levels will vary depending upon pellet choice. A lighter, faster and smaller caliber pellet, for instance, will produce a louder sound than a heavier, slower and higher caliber pellet.

Whisper® is a trademark of and is used under license by J. D. Jones. Fusion® is a Registered Trademark of Federal Cartridge Company. Used under license. Maxxim® is a Registered Trademark of Federal Cartridge Company. Used under license.

## 10X Quick-Shot Rapid Reload Technology

Our patent-pending 10X GEN 1 technology enables you to shoot up to 10 pellets without reloading. Simply break the barrel and fire for lightning-quick follow-up shots.

This patent-pending 10X GEN 2 Technology includes our revolutionary horizontal integration, making it lighter, more compact and low profile, offering a smoother operation and improved accuracy.

Inertia fed. Market leading design. This patent-pending 10X GEN3i Technology indexes using the inertia force from the recoil of the air rifle - creating a smoother and more precise breech-loading process.

## Recoil Reducing Rail - RRR

The RRR was developed to subdue the taxing stresses placed on your scope from the intense recoil of air guns and high-powered rifles. The Recoil Reducing Rail uses patent pending two-piece aluminum construction separated by dual polymer struts to absorb the shockwaves generated by the recoil. Once the scope is mounted to the Recoil Reducing Rail, the recoil stresses to its internal components are reduced by almost 100%.

## Inert gas technology

Based off the groundbreaking IGT platform, the IGT MACH 1™ replaces the standard spring powerplant with an Inert Gas Cylinder, but the IGT MACH 1's monster 33 millimeter cylinder delivers more velocity and terminal penetration. The pneumatic cylinder promotes smooth and consistent cocking efforts with constant power delivered to any pellet you shoot.

The IGT™ (Inert Gas Technology™) from Gamo enhances your hunting or target shooting experience. This technology consists of a pneumatic cylinder that replaces the spring, enabling the shooter to get more terminal velocity, less vibration, more consistent power, and a constant and smooth cocking effort.

## Shock Wave Absorber - SWA

SWA (Shock Wave Absorber) technology is an innovative feature designed to enhance the shooting experience in air rifles. This technology focuses on reducing perceived recoil when firing, achieved through the integration of three interchangeable rubber shock absorbers in the stock of the rifle. These absorbers not only lessen the impact of recoil on the shooter's shoulder but also allow for customization of the shock absorption level according to individual preferences, offering a more comfortable and precise shooting experience.

## Trigger technologies

The innovative CAT (Custom Action Trigger) system allows Gamo air rifle owners to independently adjust both the 1st and 2nd stages of the trigger, customizing the pull weight and crispness to their exact preferences. This cutting-edge technology provides a fully tailored shooting experience, giving users unparalleled control and precision.

The SAT (Smooth Action Trigger) enhances shooting precision by offering a custom design ideal for both hunting and target shooting, helping you perform like a pro. With its smooth pull, the SAT trigger maximizes pinpoint accuracy and delivers a crisp, clean feel, ensuring a superior shooting experience.

# ADULT 1000 FPS AIR RIFLES

# Wild ALPINE

Adult 1000 FPS Air Rifles

**The family is growing.** The Gamo Wild Alpine is the newest member of our Wild 1,000 FPS Adult Air Rifle line. But do you notice something new? Beyond its impressive stock, the new Wild Alpine features a Storm Barrel, giving it a fantastic tactical look.

 **SPRING**

## Technical information

- Weight: 3,1 Kg (6.8 lb)
- Length: 110 cm (43.3 in)
- Adjustable fiber optic sights
- Synthetic Stock
- Storm Barrel

The Wild family blends timeless tradition with modern style. While the durable synthetic stock defines its rugged look, the heart of this rifle remains its classic simplicity: just break the barrel and enjoy. Crafted for the purist, this is an air rifle where beauty and accuracy take center stage. See page 26 to discover the others.

# ARROW SLT

NEW

**The legend continues.** The Gamo Arrow SLT hits the market featuring an all-new Side Lever system. Engineered for speed and precision, its Multishot capabilities allow for seamless firing and effortless operation, taking your shooting experience to a whole new level.

## Technical information

- Weight: 2,3 Kg (5.1 lb)
- Length: 100 cm (39.4 in)
- 10 shot magazine (both calibers)
- No double loading
- Adjustable fiber optic sights
- Synthetic Stock
- Side Lever Technology
- Air capacity: 140 cc

**SIDE LEVER**  
TECHNOLOGY

## TECHNOLOGIES

Elevating a legend. The Arrow SLT brings Gamo's advanced Side Lever Technology to our most emblematic PCP platform. Developed to enhance the natural flow of your shooting, this side-lever system provides a mechanical advantage that reduces effort and maximizes precision. By focusing on ergonomic excellence, the Arrow SLT ensures that comfort and performance go hand in hand with every shot.
